

WHOLESOME

Wholesome is a scientifically balanced, extruded feed that provides high energy plus essential minerals and vitamins thus meeting the nutritional requirements of equines performing up to the highest levels in most disciplines. Extrusion increases the digestibility of the product, therefore improving feed conversion efficiency and reducing the amount you will need to feed, in turn reducing the cost of feeding.

Wholesome is formulated with 80% extruded grain, full fat soymeal, with added Biotin & Bioplex Zinc®, ensuring that your horse receives a highly digestible energy, premium quality protein and a comprehensive range of essential minerals and vitamins. Wholesome provides a complete profile of essential amino acids to assist with muscle function and recovery after intense exercise.

Suitable for:

All performance equines experiencing moderate to strenuous training. Eg. polocrosse, racing, endurance and eventing.

Benefits for your equine athlete:

- *Provides highly digestible & available energy specifically formulated to meet the needs of the high performance sport horse*
- *Contains premium quality protein*
- *Extruded product for cool sustained energy, high performance & rapid recovery after strenuous work*
- *Contains a comprehensive range of essential minerals & vitamins (including Biotin & Bioplex Zinc®)*
