Feed & Supplements
for all Equine Needs!

www.hyfeed.com.au

PEACE OF MIND **GUARANTEE**

Hyfeed seeks to bring the equine owner a range of superior quality, scientifically-balanced, complete feeds and supplements.

We pride ourselves on producing specialty equine feeds of the highest standard, using only the best ingredients from trusted producers.

Our professional team are confident we have a product that will suit your equine needs.

All our feeds are made fresh, using extrusion, cold pressing and pelleting methods at our factory in Toowoomba, Queensland.

We are locally owned and operated with a passion to supply the best to our customers and their animals.

TABLE OF CONTENTS

HYFEED COMPLETE FEEDS

Shine On <i>(cool energy & shine)</i>	2
Weight Plus <i>(optimum body condition)</i>	4
HyPerforma <i>(energy for performance)</i>	6
Pony Pellets <i>(cost-effective nutrition)</i>	8

HYFEED SUPPLEMENTS

HyLupin <i>(low-sugar fibre alternative)</i>	10
HyFibre <i>(super fibre pellet)</i>	12
Big Head Pellets & Lick <i>(overcoming calcium deficiency)</i>	14
Equimin Plus <i>(healthy skin, coat & hooves)</i>	16
WP Horse Minerals <i>(loose lick, essential vitamins & minerals)</i>	18

No matter what demands your horse faces,
HYFEED has the solution!

ADVANCED EQUINE NUTRITION

*Complete feeds & supplements scientifically formulated
for horses of all ages, needs & activity levels*

HYFEED SHINE ON

COOL ENERGY & SHINE

Ideal for
**BREEDING,
SHOWING &
PERFORMANCE
HORSES**

- ✓ Cereal grain-free
- ✓ Delivers a healthy coat
- ✓ Premium quality protein suitable for muscle growth and development
- ✓ Assists in building topline and adding condition to poor doers
- ✓ Contains essential vitamins and minerals
- ✓ Great price
- ✓ Easy-to-feed; all the nutrition work is done for you!

Shine On delivers a highly nutritious, cereal grain-free, pelleted feed that is a high fibre, high fat, low starch formulation for breeding, growing and performance horses.

Shine On is a cool feed and is ideal for show and performance horses that are unable to tolerate high grain rations. It is formulated with premium quality protein sources, super fibre (in the form of soy hulls), omega-rich oils, along with a vitamin and mineral supplement... all in an easy-to-feed pellet!

Contains Zinpro Availa 4 Minerals, a highly available form of Zinc, Copper, Manganese and Cobalt. These trace minerals are required by animals for immunity, reproduction, skin and hoof integrity, growth and muscle development.

Contains Rumicell Protect. Comprised of five high strength probiotic strains and live yeast which can significantly enhance the beneficial microbial population which can lead to better fibre digestion and overall improved gut health.

COMPLETE FEED

SHINE ON DAILY FEEDING RATES (KG/DAY)

Duration and Intensity of Exercise	Body Weight (kg)			
	Up to 300	300 - 400	400 - 500	Over 500
Spelling/Idle	0.5 - 1.5	1.0 - 2.5	1.5 - 3.0	2.0 - 4.0
Light Work	1.0 - 2.0	1.5 - 2.5	2.0 - 3.0	2.5 - 4.0
Moderate Work	1.5 - 2.5	2.0 - 3.0	2.5 - 3.5	3.0 - 4.5
Heavy Work	2.5 - 3.5	3.0 - 4.0	3.5 - 4.5	4.0 - 5.5

Note:

Roughage (hay, chaff, pasture etc) should be fed at 1-1.5% of bodyweight. Amounts above are a guide.

Total daily feed (concentrate + roughage) should be 2-3% of bodyweight depending on age, workload and climate.

SHINE ON INGREDIENTS

Hyfeed Shine On is a blend of the following quality ingredients:

Chickpea Millrun, Soya Hulls, Linseed, Copra Meal, Full Fat Soya Meal, Molasses, Lime, Salt, Magnesium Oxide, MDCP, Potassium Chloride, Vitamin & Mineral Premix, Biotin 2%, Zinpro Availa 4 Minerals, Rumicell Protect, Mould Inhibitor

**Base raw ingredients may gradually change due to season variations.*

HYFEED WEIGHT PLUS

OPTIMUM BODY CONDITION

Ideal for enhancing
**MUSCLE,
TOPLINE,
COAT CONDITION
& SHINE**

- ✓ Maximises body condition
- ✓ Improves coat condition
- ✓ Nutritionally balanced and highly digestible
- ✓ Cereal grain-free feed
- ✓ Contains added vitamins and minerals
- ✓ Enriched with Pro(n8)ure - a Probiotic, Prebiotic and Multi-Strain enzyme

Weight Plus allows your horse to achieve optimum body condition while maintaining calm. This uniquely formulated feed incorporates premium quality ingredients including: Chaff, Full Fat Soy Meal, Super Fibre (Soy Hulls), Sunflower Seeds and Omega-rich Soy Oil, providing equines with the ultimate conditioning feed.

Weight Plus helps to improve muscle definition, increase topline and enhances coat condition and shine.

Contains Zinpro Availa 4 Minerals, a highly available form of Zinc, Copper, Manganese and Cobalt. These trace minerals are required by animals for immunity, reproduction, skin and hoof integrity, growth and muscle development.

Contains Rumicell Protect. Comprised of five high strength probiotic strains and live yeast which can significantly enhance the beneficial microbial population which can lead to better fibre digestion and overall improved gut health.

HYFEED HYPERFORMA

ENERGY FOR PERFORMANCE

Ideal for
MEDIUM TO
HARD WORKING
HORSES IN A
RANGE OF
DISCIPLINES

Photo courtesy of
Liz Speed Photography

- ✓ Includes a comprehensive range of essential minerals and vitamins
- ✓ Extruded component to increase digestibility
- ✓ Economical and easy to use
- ✓ Digestible energy and quality protein

HyPerforma is an extruded complete feed with an extruded barley component to maximise digestibility in the horse and provide cool energy. Formulated for medium-to-hard working horses in a wide range of competitive disciplines.

HyPerforma contains Biotin and Organic Zinc for hoof strength and overall function of the horse's body.

Contains Zinpro Availa 4 Minerals, a highly available form of Zinc, Copper, Manganese and Cobalt. These trace minerals are required by animals for immunity, reproduction, skin and hoof integrity, growth and muscle development.

Contains Rumicell Protect. Comprised of five high strength probiotic strains and live yeast which can significantly enhance the beneficial microbial population which can lead to better fibre digestion and overall improved gut health.

COMPLETE FEED

HYPERFORMA DAILY FEEDING RATES (KG/DAY)

Feed 1-4 kg of HyPerforma per horse per day, with pasture, hay or chaff.

This rate depends on intensity of workload and size of the horse, adjust as required. Introduce gradually to the horse's diet and provide fresh, clean water at all times.

Note:

Roughage (hay, chaff, pasture, etc) should be fed at 1-1.5% of bodyweight. Amounts suggested are a guide.

Total daily feed (concentrate + roughage) should be 2-3% of horse's bodyweight depending on age, workload and climate.

Extruded Barley, Mixed Pulses, Lupin Hulls, Full Fat Soy Meal, Chick Pea, Millrun, Agrimol, Lucerne Chaff, Cool Cubes premix, Maize & Black Sunflower Seeds, Zinpro Availa 4 Minerals, Rumicell Protect.

**Base raw ingredients may gradually change due to season variations.*

HYFEED PONY PELLETS

COST-EFFECTIVE NUTRITION

Ideal for
**HORSES &
PONIES IN LIGHT
TO MEDIUM
WORK**

- ✓ Contains a comprehensive range of essential minerals and vitamins
- ✓ Economical and convenient to use
- ✓ Available in both 20kg bags and 500kg bulk bags

Hyfeed Pony Pellets is an economical supplementary feed for horses and ponies formulated for a wide variety of situations including spelling horses, pony club, broodmares and performance horses in light-to-medium workloads.

COMPLETE FEED

PONY PELLETS DAILY FEEDING RATES (KG/DAY)

Feed at 1-4 kg per head per day, depending on size of horse and workload being performed.

Feed with chaff, hay or pasture, at the rate of 1-1.5% of bodyweight.

Note:

Amounts suggested are a guide.

Total daily feed (concentrate + roughage) should be 2-3% of horse's bodyweight depending on age, workload and climate.

PONY PELLETS INGREDIENTS

Hyfeed Shine On is a blend of the following quality ingredients:

Barley, Millrun, Linseed, Copra Meal, Lime, Bentonite, Agimol, Salt, Mag Oxide, Vitamin and Trace Mineral Premix

*Base raw ingredients may gradually change due to season variations.

HYFEED HYLUPIN

LOW-SUGAR FIBRE ALTERNATIVE

Ideal for
**BREEDING,
SHOWING &
PERFORMANCE
HORSES**

- ✓ Low sugar, starch and fat levels
- ✓ Made from 100% Australian grown lupins
- ✓ High in digestible fibre
- ✓ Can help aid in hydrating your horse
- ✓ Contains amino acids vital for horse health

HyLupin delivers a versatile fibre alternative for a wide range of horses. Being low in sugar and starch, it is ideal for overweight and laminitic horses and ponies.

Made from Australian grown lupin hulls, **HyLupin** contains important amino acids essential for your horse's health and function. Designed to be soaked and fed as a mash, **HyLupin** is also a great option for older horses or those with poor dentition.

HyLupin is suitable for:

- Overweight and laminitic horses/ponies
- Horses and ponies prone to ulcers, EMS and other metabolic conditions
- Feeding as a fibre alternative to most horse's diets
- Older horses or those with poor dentition

HYLUPIN DAILY FEEDING RATES (KG/DAY)

The table below outlines the kilograms (dry weight) of HyLupin to be fed as a mash per day.

Adjust the suggested feeding rates according to horse's size and workload.

Body Weight (kg)	Rest/Light Work	Moderate Work	Heavy Work
300-450	0.2 - 0.5	0.75	1.0
450-550	0.4 - 0.6	1.0	1.5
550-650	0.6 - 0.8	1.25	1.75
650 +	0.8 - 1.0	1.5	2.0

* total Lupin hull intake should not be more than 2 kg/day per 500kg horse.

- Must be fed soaked, at a ratio of 2 parts water to 1 part HyLupin.
- Soak for at least 10 mins for a mash-like consistency.
- Feed within 12 hours of soaking.
- To be fed in conjunction with other roughage/ concentrates. Introduce slowly to the diet over the course of 2 weeks minimum. Provide fresh clean water at all times.

HYLUPIN NUTRITIONAL ANALYSIS (TYPICAL ANALYSIS PER KG)

Basic Analysis	Dry Matter
Protein	17.6%
Digestible energy	9.9 MJ/kg
Fat	4.1 %
Crude Fibre	33.2 %
Starch	0.4 %

HYLUPIN INGREDIENTS

Hyfeed HyLupin is a blend of the following quality ingredients:

Lupin Hulls, Soy Oil, Mould Inhibitor

*Base raw ingredients may gradually change due to season variations.

HYFEED HYFIBRE

SUPER FIBRE PELLETT

Ideal for
**HORSES THAT
STRUGGLE
TO MAINTAIN
WEIGHT**

- ✓ Made with Australian grown, GMO-free soybeans
- ✓ Suitable to feed all equines of varying ages and workloads
- ✓ No added molasses or cereal grains
- ✓ Easy-to-feed and cost-effective pellet

HyFibre is a Super Fibre pellet produced from Australian grown soy hulls which have a very high content of soluble fibre, making them easily digested in the large intestine.

Soy Hulls provide a steady source of energy and will assist in maintaining a healthy digestive environment. The high digestible energy content of Soy Hulls makes them an ideal feed for horses who struggle to maintain weight.

HyFibre pellet contains 100% Soy Hulls. There is no added molasses, cereal grains or other feed stuff.

HYFIBRE DAILY FEEDING RATES (KG/DAY)

500g to 2kg per horse per day

(subject to the horse's age, work load, current body condition and access to pasture and hay)

HOW TO FEED HYFIBRE

HyFibre is designed to be soaked with water (warm or cold).

It is recommended to soak the pellets in a 1:1 ratio of pellets:water, (eg. to 1 dipper of pellets you would add 1 dipper of water). This will form a light mash consistency. The pellets will be ready to feed out in under 10 minutes.

These pellets are designed to be fed in conjunction with a good quality vitamin and mineral supplement, along with access to pasture or hay.

HyFibre can also be included into your horse's current hard feed mix, to reduce the amount of chaff required, or to boost the amount of fibre your horse is receiving.

HYFIBRE NUTRITIONAL ANALYSIS (TYPICAL ANALYSIS PER KG)

Basic Analysis	Dry Matter
Total Protein % Min	15.0
Digestible Energy Mj/kg	10.9
Crude Fat % Min	5.0
Starch % Min	0.7
Crude Fibre % Min	34.0
Total Sugar % Min	2.4

HYFIBRE INGREDIENTS

Hyfeed HyFibre is a blend of the following quality ingredients:

Soy Hulls, Mould Inhibitor

**Base raw ingredients may gradually change due to season variations.*

HYFEED BIG HEAD RANGE

OVERCOMING CALCIUM DEFICIENCY

Ideal for
HORSES
AT RISK OF
CALCIUM
DEFICIENCY

- ✓ **Balanced calcium to phosphorous ratio**
- ✓ **Superior supplement for developing bones**
- ✓ **Counters the effect of Big Head condition**
- ✓ **Highly available form of Vitamin D for greater calcium absorption**
- ✓ **Easy-to-feed pellet — no mixing required**

Big Head Pellets and Lick are suitable for all equines grazing on affected pastures or receiving pollard or bran-based diets.

Nutritional Secondary Hyperparathyroidism is commonly known as “Big Head” and occurs when there is a calcium imbalance within the horse’s diet. Big Head condition can occur in horses when they are grazing tropical and sub-tropical grasses that contain high concentrations of oxalates, or who are fed high phosphorous-containing diets such as high grain, pollard or bran.

Big Head Pellets and Lick are calcium supplements used to rectify the calcium-to-phosphorous ratio and overcome calcium deficiencies. They are also suitable for feeding to broodmares and young stock, to maximise the availability of calcium in their diets.

SUPPLEMENT

BIG HEAD RANGE DAILY FEEDING RATES (G/DAY)

If “Big Head” is suspected, consult a veterinary surgeon for treatment advice.

PELLETS: 500-1kg per head per day

LICK: 200g per head per day

Hyfeed Big Head Lick is a blend of the following quality ingredients:

MDCP, Copra Meal, Limestone, Salt, Molasses, Magnesium Sulphate, Vitamin & Mineral Premix

**Base raw ingredients may gradually change due to season variations.*

HYFEED EQUIMIN PLUS

HEALTHY SKIN, COAT, HOOVES

Ideal for
EQUINES OF
ALL AGES WHO
DESERVE THE
BEST!

- ✓ Concentrated vitamin and mineral supplement
- ✓ Can improve hoof, coat and skin conditions
- ✓ Economical, easy-to-feed pellet

Equimin Plus is a premium pelleted supplement designed to promote and maintain healthy skin, coat and hoof condition by providing the equine with the necessary vitamins and minerals for overall health and vitality. **Equimin Plus** contains Biotin which is needed to promote hoof growth and repair by stimulating horn production, not only in the coronary band but also in the laminae.

Equimin Plus incorporates Zinpro Availa 4 which is a chelated organic form of zinc, cobalt, manganese, copper that is highly available to equines. Zinc is a trace mineral that forms an essential part of many highly important enzyme systems involved in keeping equines healthy, fertile and performing at their maximum. It is involved in disease resistance, skin and coat condition and in structural soundness of the hoof and udder. Products high in Zinc and Copper, other hoof-helping elements, are helpful for keratin and collagen production.

Hyfeed Equimin Plus contains a comprehensive range of minerals and vitamins essential in meeting the requirements of all equines, making it the ultimate pelleted vitamin and mineral supplement available.

Suitable for equines of all ages, ensuring that regardless of age or workload, equines everywhere can receive the best.

Contains Zinpro Availa 4 Minerals, a highly available form of Zinc, Copper, Manganese and Cobalt. These trace minerals are required by animals for immunity, reproduction, skin and hoof integrity, growth and muscle development.

HYFEED WP HORSE MINERALS

ESSENTIAL VITAMINS & MINERALS, LOOSE LICK

Ideal for
HEALTHY
GROWTH,
DEVELOPMENT &
PERFORMANCE

- ✓ Concentrated vitamin and mineral supplement
- ✓ General health and vitality
- ✓ Efficient utilisation of feeds
- ✓ Balances pastures and other feedstuffs

WP Horse Minerals is a loose lick supplement with a balanced level of essential minerals, vitamins and trace elements specifically formulated for horses.

The daily addition of WP Horse Minerals will contribute to the healthy growth, development and performance of equines.

WP Horse Minerals contains a weather-proofing agent to repel moisture in a paddock ad lib feed situation.

Suitable for equines of all ages, ensuring that, regardless of age or workload, equines everywhere can receive the best.

Contains Zinpro Availa 4 Minerals, a highly available form of Zinc, Copper, Manganese and Cobalt. These trace minerals are required by animals for immunity, reproduction, skin and hoof integrity, growth and muscle development.
